# PROFILE

Recent computer science and Engineering graduate with a strong foundation in Python programming, web development, and a passion for learning and contributing to innovative projects. Seeking an entry-level position as a Python full-stack developer to apply my skills and knowledge to real-world applications and further develop my expertise in web development.

# PROJECTS

## NOTES APP (FRONTEND)

- Users can easily create new notes with a title and content.
- Each note is automatically saved as the user types, ensuring no data is lost.
- Notes can be edited at any time. Users can modify the title and content of their notes as needed.
- Changes are saved in real-time.
- Users can delete notes they no longer need with a single click.

## BUS RESERVATION SYSTEM (BACKEND)

- User Profile: Manage user details and view booking history
- User Authentication: Sign up, login, and password management.
- Bus Schedule Management: Add, update, or delete bus schedules.
- Reservation Handling: Search for buses, book seats, cancel reservations, view booking history
- Error Handling: Manage errors and exceptions to ensure smooth operation.
